ANNOUNCING THE NEW GLADIOLUS SHIRLEY TEMPLE

Originated by
D. S. PRUITT

A very fine new gladiolus in color where there is plenty of room for improvement.

Light cream with deeper cream throat. Beautifully ruffled. Large wide open blooms, with six to eight of eighteen florets open at one time. Very heavy substance and one of the best of keepers when cut, blooming out to the last bud on the spike. An excellent grower both from bulb and bulblet. Its name combined with its wonderful merit is sure to make it one, if not the greatest exhibition and commercial gladiolus ever released.

Owing to its excellent growing habits and the increase I got from it last year I feel justified in offering it at the following price, which I consider very low.

I have already sold enough of these early in January of the new year that I am drawing from my own seed reserve to fill orders. However I have decided to sell lower than I first intended to, thus giving everyone a more even start with me.

	Large	Medium	Small	Bulblets
Price Each	\$10.00	\$7.50	\$5.00	\$1.00
